

The address number is 2bis (not 2), but google maps do not have it registered.

Look for the “[4 Rue de Mirbel 75005 paris](#)” on google maps, the entry is then just 10 meters on your right, down the street.

If you recognize the door - you are at the right place :-)

The code to enter in the building is 8624

After the first door, find the intercom on the right. It works with a code 6475.

If needed you can also call me with it (name korchia) : it rings on my phone.

Then climb up to the 6th floor.
You can use the tiny elevator, or you
own energy ;-)

Up there, go on your left.

The entry door is the second one in the hallway - the one with this doormat.

You will find the key in the keybox that is in front of the third door (the one that is right after in the same hallway).

This is your keybox

Open it with your personal code, sent by message.

You now have the key and the door -
you are all set to enjoy :-)

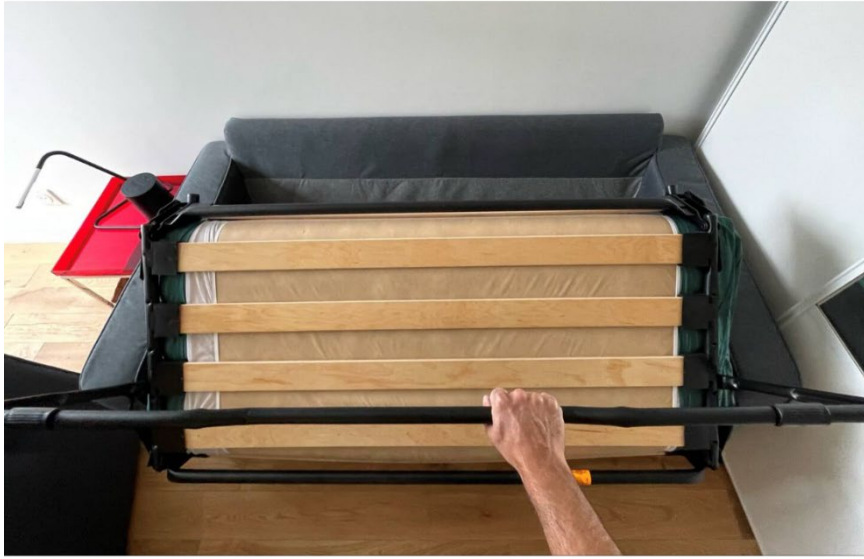

In order to open the bed, find
the sofa ;-)

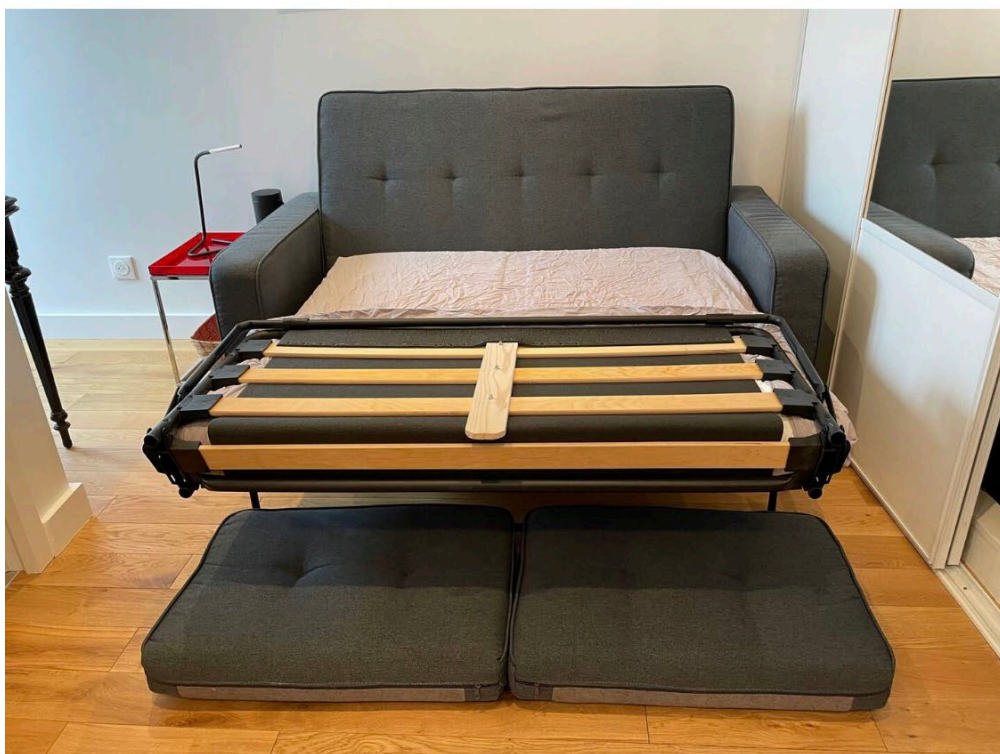

Remove the cushions.

Take the front bar and tire it up.
Sometimes, you need to enlarge a bit
the sofa structure that might block
your movement.

Deploy it

The small cushions fits perfectly under the bed. The big one is a very good bedhead.

Should look like that at the end :-)

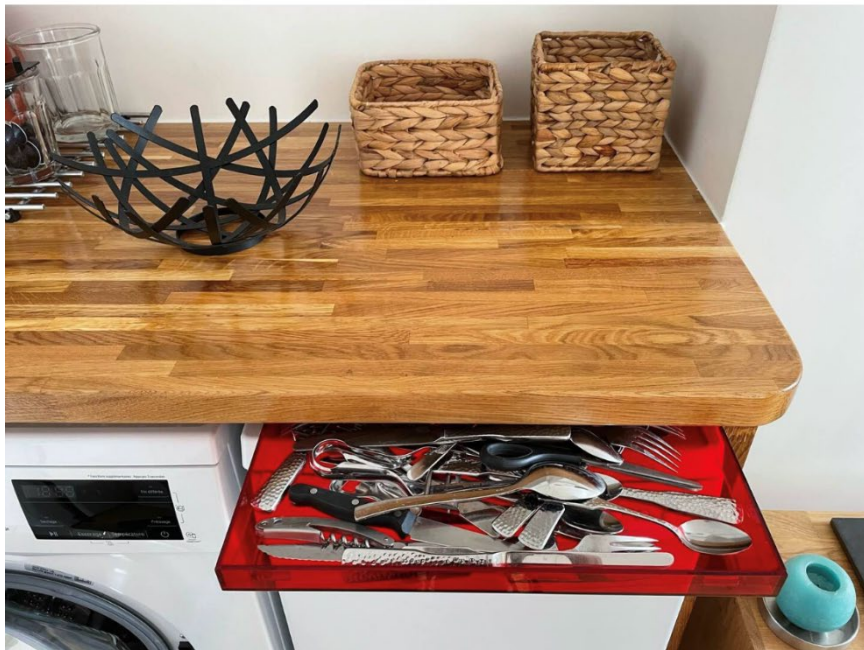

Ready to sleep !

In order to use the kitchen, please take care of the induction hobs.

Pour cuisiner, merci de faire attention aux plaques à induction.

Looking for knife, fork and other cutlery for eating ? Look at the top of the dishwasher.

Looking for trash bin ?
Look at the window ;-)

Looking for the right place to empty
your trash bin ? This is behind that door
on the left of the elevator.

Green : for all rubbish

Yellow : for paper/plastic/cans

The speaker name is Alexa
It speaks English and French

The wifi name is **NiKo**

The wifi code is **pinkbike**

Just scan the qrcode ;-)

ENJOY !

Nico
